Case Study of the Month
Authorship Declaration

Manuscript Title: _____

Up to two authors are allowed for the ASDP Case Study of the Month. At least one of these authors should be a non-trainee attending physician. Up to three authors are allowed if there are physicians-in-training as authors. Only persons who meet at least one of the criteria below are eligible for authorship/co-authorship. By signing this form, every author takes responsibility for the content and revision of the manuscript. Plagiarism is prohibited. Simply being a part of the diagnosis and work-up of the patient does not meet criteria for authorship; however, these physicians may be acknowledged at the end of the case study. Each co-author must complete this form.
